ABOUT ME

I am a qualified Software Engineering with experience in web application development and a solid understanding of modern technologies.

My last job was for De La Cruz Laundry, where I led a development team to create a web application for the company's document management system. I also designed and developed the company's website from scratch, boosting its online presence.

I am looking for a professional opportunity that will allow me to apply and expand my technical skills, as well as contribute to the company's growth and continue my development in the field of computer science.

WORK EXPERIENCE

Software Developer & Web Administrator

De La Cruz Lavandería, 2024 - present
